

SHIVANI SINGH

Software Developer | AI & Data Analytics

Palwal, Haryana, India | +91 9991225453 | singhshivani9050@gmail.com | linkedin.com/in/shivani-singh-358542347 | github.com/shivanisingh-dev01

PROFESSIONAL SUMMARY

BCA student at Gurugram University (graduating 2027) with hands-on experience in Python, Java, C, SQL, and core software development concepts including Data Structures, OOP, DBMS, and the SDLC. Proven track record across three internships in software development, artificial intelligence, and data analytics, including building AI/ML tools, cleaning and visualizing data, and delivering Power BI dashboards. Seeking a Software Developer or Data Analyst role to apply strong programming, analytical, and problem-solving skills in a production environment.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, SQL

Web Technologies: HTML, CSS

Databases: MySQL

Data Analytics & Tools: Power BI, Microsoft Excel, Streamlit, Git, GitHub, VS Code

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Software Development Life Cycle (SDLC), Machine Learning Fundamentals

PROFESSIONAL EXPERIENCE

Software Developer Intern | Cognifyz Technologies

2026

- Developed Python-based applications and AI-driven project modules, applying object-oriented programming and software engineering best practices.
- Managed version control and project documentation using Git and GitHub within SDLC processes, delivering functional software components on schedule.

Data Analyst Intern | Thiranex

1 Month, 2026

- Performed end-to-end data cleaning, transformation, and analysis on sales datasets using Python and Excel to surface actionable business insights.
- Built interactive Power BI sales and revenue dashboards, and conducted customer segmentation analysis to inform targeted business strategy.

Artificial Intelligence Intern | Code Alpha

2026

- Designed and built an AI-powered language translation tool using Python and Streamlit, delivering real-time text translation through a custom user interface.
- Applied machine learning and NLP fundamentals to improve translation accuracy and application usability.

PROJECTS

Sales & Revenue Analysis Dashboard | Tools: Python, Power BI, Excel

- Analyzed multi-category sales data using Python and Excel to identify revenue trends and growth opportunities, applying data cleaning and transformation for accuracy.
- Built interactive Power BI dashboards for real-time visualization of sales performance and KPIs.

Customer Segmentation Analysis | Tools: Python, Machine Learning

- Analyzed historical customer behavior data and applied K-Means clustering to segment customers into actionable groups.
- Translated analytical findings into insights that informed targeted business and marketing decisions.

AI Language Translation Tool | Tools: Python, Streamlit

- Developed a Python-based translation application with a Streamlit user interface, supporting multiple languages using NLP libraries.
- Implemented core text-translation functionality with reliable input/output handling.

EDUCATION

Bachelor of Computer Applications (BCA)

Gurugram University | Expected Graduation: 2027

CERTIFICATIONS

- Artificial Intelligence Internship — Code Alpha
- Data Analytics Internship — Thiranex

ADDITIONAL INFORMATION

Soft Skills: Communication, Teamwork, Problem Solving, Time Management, Adaptability | Languages: English, Hindi | Interests: Software Development, AI, Data Analytics, Web Development, Machine Learning
